CHILDRENS DAY

Children's Day is celebrated across India to increase awareness about the rights, education, and welfare of children. It is celebrated on 14 November every year on the birthday of the First Prime Minister of India, Pandit Jawaharlal Nehru. Known as 'Chacha Nehru' among children, Nehru advocated for children to have all-rounded education that would build a better society in the future. Nehru considered children as real strength of a nation and foundation of society. On this day, many educational and motivational programmes for children are held across India.

Celebration on children's day is a great way to make both children and adults aware that children are the true future of the country. Hence everyone should understand the responsibility towards providing a fulfilled childhood to every child. The love and care that we give to our Children today, disregard of their social and economic status, will bloom as the fate of our country tomorrow. Children's day celebration is a tribute to this thought. The NSS unit of our college also

conducted several programmes and celebrated children's day on November 14 itself. Due to the Covid restrictions all the celebration programmes were conducted through online platforms. We conducted a drawing competition on the topic 'children's day' itself and a quiz competition on November 14 itself. Many students and volunteers participated in the programmes and shared their drawings and opinions about the day through online mediums. Students and volunteers got new information and new thoughts throughout the programme. The programme was a huge success due to the mass participation of students and volunteers.
