World Science Day for Peace and Development is an international day that highlights the important role that science has in society and is celebrated each year on November 10. It also highlights the need to engage the wider public in debates on emerging scientific issues. When the world is struggling with the global Covid-19 pandemic, the focus of World Science Day is on "Science for and with Society in dealing with the global pandemic." The theme for World Science Day for Peace & Development 2020 is "Science for and with Society in dealing with Covid-19."
