## Extension Activities

### Sanitizer Making

An effective and simple method for reducing transmission of infections in public or healthcare settings is hand hygiene. During the outbreak, the Department of Chemistry, Sree Narayana College, Chengannur used their skills, expertise and facilities to prepare low cost hand sanitizer in the lab. The sanitizer was prepared on the basis of WHO norms using isopropyl alcohol, glycerol, aloe vera, hydrogen peroxide, and lemon grass oil. The prepared sanitizer were kept in 100ml bottles and distributed to the vulnerable sections of the society. The sanitizers were distributed to the treasury office, police station, fire station and Federal Bank. During the distribution, the teachers also spread the message of Break the Chain. Hand hygiene is of utmost importance during examination and the department also take steps to distribute prepared sanitizers to the entire students of the college. The sanitizers were given to all the students in the examination hall without disturbing the exam and the bottles were also kept at the entrance of the college. The department has also given training to the final semester students for the preparation of low cost sanitizers.

**Sparkling Pearls :**  
A water drop on a hydrophobic surface acting as a convex lens.

Hydrophobic which means "water-fearing", describes the segregation of water and nonpolar substances, which maximizes hydrogen bonding between molecules of water and minimizes the area of contact between water and nonpolar molecules. Acting as a lens, the water drop refracts incoming light to a focal point before the light spreads out again. Surface tension maintains the droplet's spherical shape, creating a convex lens.

Welcome address was delivered by Smt. Sreedevi Gopalakrishnan, HoD, Dept. of Economics, Sree Narayana College, Chengannur. Subsequently, the inaugural address was made by the honorable Principal, Smt. Shereen K, Sree Narayana College, Chengannur. Further, the felicitation was conveyed by Prof. (Dr.) K S Sarwani, The Tamil Nadu Dr. Ambedkar Law University, Chennai and Dr. Ajinder Walia, Assistant professor, NIDM, New Delhi and Smt. Vani Jayadevan, Assistant Professor, Dept. of Economics, Sree Narayana College, Chengannur expressed the vote of thanks.

Dr. Haritha Devi, Research Director, The Tamil Nadu Dr Ambedkar Law University, Chennai. Her lecture mainly focusses on the legal provisions in transmitting the traditional ecological knowledge into knowledge economy and she argues that assigning intellectual property rights will empower the indigenous community. She emphasized the importance of traditional knowledge in the treatment of snake bite and its documentation would be beneficial to the mankind and it can also be monetized.

Dr. P Sakthivel, Assistant Professor from The Tamil Nadu Dr Ambedkar Law University, Chennai. The central point of discussion was on the health economic and policy perspectives of antivenom initiatives. He opined that the socio- economic conditions of the patients due to snake bite will be reflected on the treatment cost and it will have a long-term impact on the health and ability of survivors at work. He criticized that national health policy, 2017 didn't have a mention about the specificity of venom/ snake bite even in rural areas and specific health issues including treatment of venom.

#### Theme Note

Research is a systematic investigation into and study of materials and sources in order to establish facts and to reach at new conclusions. While considering the different stages of research, identifying the research problem forms the foremost and essential stage in it. The authenticity and relevance of the research problem in the contemporary situations will enlarge the quality of research and is helpful for the policy makers in framing suitable policies for the welfare of the society.
