11. YOUNG INNOVATORS PROGRAMME (YIP)

Sree Narayana College, Chengannur actively participating K-DISC's Young Innovative Programme. Coordinator of the Programme is Dr. Nishad A, Assistant Professor, Dept. of Commerce. YIP Committee includes the Principal as the Head and all other Dept. Heads as the members of the committee. K-DISC's Young Innovators Programme (YIP) is set to enter an exciting new chapter with the announcement of the program's second edition through 2022. Keeping with the true intent of the vision of the program – to expose young students to the cycle of innovation and to promote a culture of Innovation in Kerala, YIP 2022 is designed to create a deeper imprint on the academic system in the state. The term "Young Innovators Program" is quite broad and can refer to different initiatives and programs aimed at fostering innovation among young individuals. These programs often provide resources, mentorship, and opportunities for young people to develop their innovative ideas and turn them into impactful projects or businesses. Young Innovators Competitions are competitions that invite young innovators to present their ideas or projects in various fields such as technology, science, social entrepreneurship, or sustainable development.

Orientation Programme

On 3rd April 2023 at Sree Narayana College conducted an online orientation programme by YIP district co-ordinator Ms. Shamil M and it was a highly informative session for the students. A Young Innovators Students Orientation Program is an initiative designed

to introduce young students to the world of innovation, entrepreneurship, and problem-solving.

Students are introduced to the concept of innovation, its importance in today's world, and how innovation can address real-world challenges. They learned about the different forms of innovation, such as technological, social, or business innovation. Students are guided through the process of generating ideas and understanding the principles of design thinking. They learned how to identify problems, brainstorm creative solutions, and prototype their ideas. Students are exposed to the fundamentals of entrepreneurship, including aspects such as market research, business models, finance, and marketing. They learn about the entrepreneurial mindset and the process of turning ideas into viable business ventures.

12. REPORT ON REMEDIAL CLASS - 2022-2023

Remedial coaching classes were carried out for slow learners to identify their weaknesses and strengthen the areas where they are in lack. All the departments of the college conduct remedial classes for all semester and students are benefited out of the session. Systematic coaching classes for needy students will help them to perform better in their examinations. Remedial classes include organized teaching hours, repeated examinations, and mentoring sessions. The classes helped students to enhance their performances. The slow learners were identified by entry-level test and decided to give remedial classes from 3 pm-4 pm three days a week.

13. REPORT ON BRIDGE COURSE

The Department of Physics, Chemistry, Commerce, English and Economics organized a one-week duration bridge course to provide a foundation in the core subjects for the new students

(2022-2025 Batch). Bridge course will help the students to have a smooth transition from plus –two classes to the first-degree course. As per the decision of college, the departments organised one hour classes after the regular academic hours. The learner understood the concepts, the basics rules and procedures. The practical skill of the students also improved.

14. ICT TOOLS USED

Teachers use information and communication technology to effectively teach the curriculum. The selected classrooms are equipped with wall-mounted projectors. The smartboard and laptops are available to teachers for instruction as needed. Teachers use various educational technologies to support instruction. From 2020-21, due to the limitations of COVID -19, faculty primarily used online technologies such as YouTube, Google Meet, and Zoom to deliver regular lectures. Study materials are shared via Google Classroom. To supplement and encourage continuous internal assessment, various departments use KAHOOT software to conduct online quizzes. The college has subscribed to N-List (E-Journals E Books). The library is automated with the integrated library management system “Granthasoft”.

11. ICT TOOLS USED

Teachers use information and communication technology to effectively teach the curriculum.

The selected classrooms are equipped with wall-mounted projectors. The smartboard and

laptops are available to teachers for instruction as needed. Teachers use various educational technologies to support instruction. In 2020-21, due to the limitations of COVID -19, faculty primarily used online technologies such as YouTube, Google Meet, and Zoom to deliver regular lectures. Study materials are shared via Google Classroom. To supplement and encourage continuous internal assessment, various departments use KAHOOT software to conduct online quizzes. The college has subscribed to N-List (E-Journals E Books). The library is automated with the integrated library management system “GranthaSoft”.

5.1.2 Report on Programmes /activities conducted to enhance soft skills, Language and communication skills, and Life skills 2020-21

English language skills are very important for students to compete in the challenging world. The Department of English strives to equip the students by providing English language skills activities for improving their language skills. For achieving this goal the department conducts various programmes and classes online/offline for improving their four language skills for the past five years.

Providing practice materials and activities

Practice is essential to build vocabulary and develop your English communication skills. These activities help to accelerate English speaking, listening, reading, and writing skills.

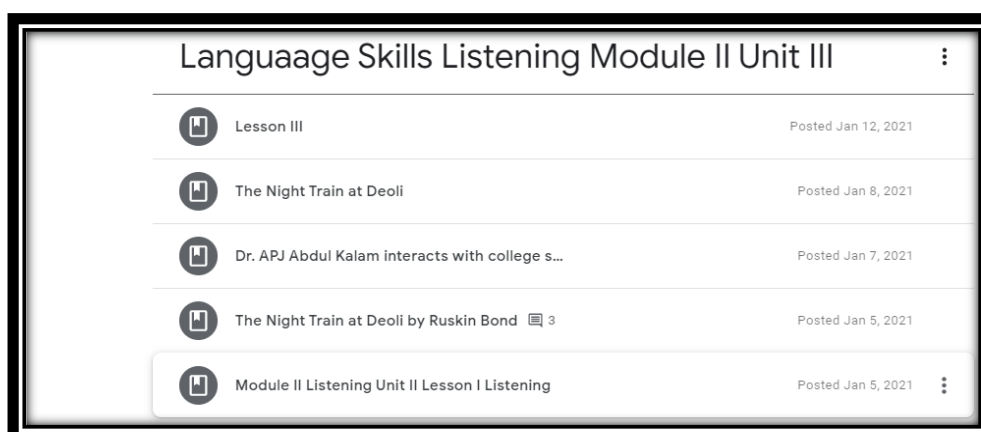

Practice materials

Teachers expose the students to tremendous practice materials available free online practice tests and offline study materials and physical classes

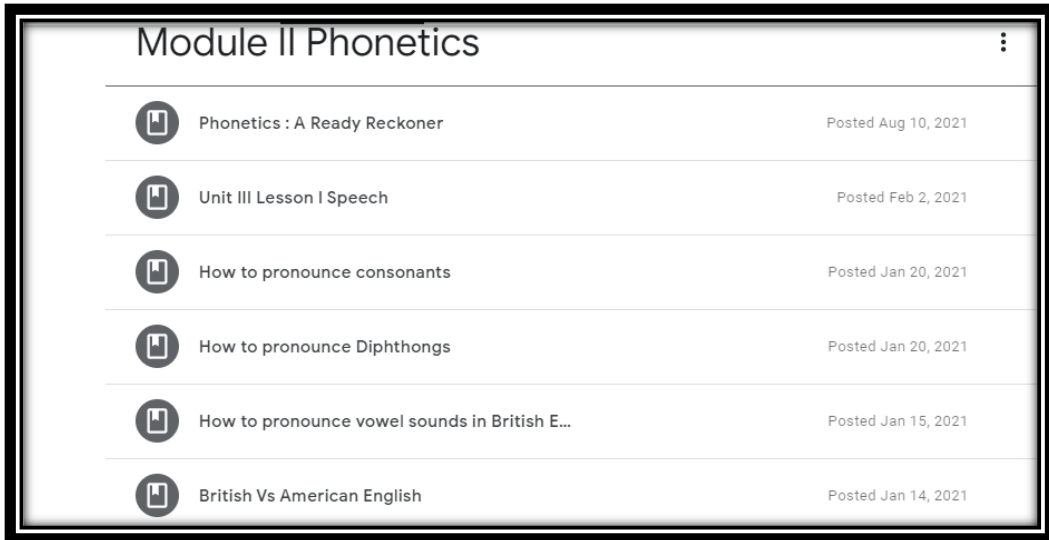

Activities

Various fun activities like word games, jokes, riddles, rhymes, songs, and tongue twisters give the students to learn the English language easily. Students are exposed to YouTube videos, guiding students to attend webinars of international universities like Oxford, Cambridge, etc. These activities prepare the students to be more updated and engaged in language skill activities.

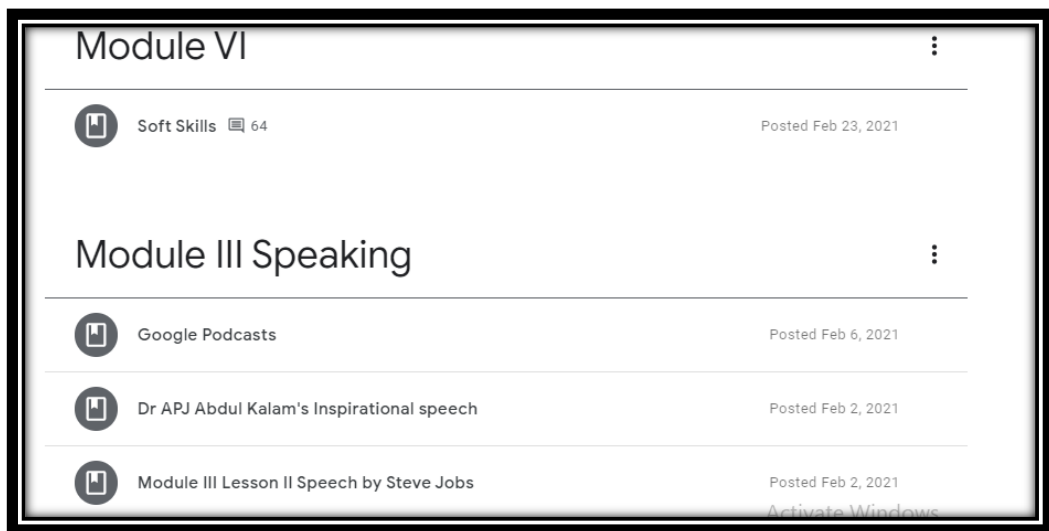

Google Classroom was created for the ease of study and delivery of study materials.

Study materials - sample screen picture

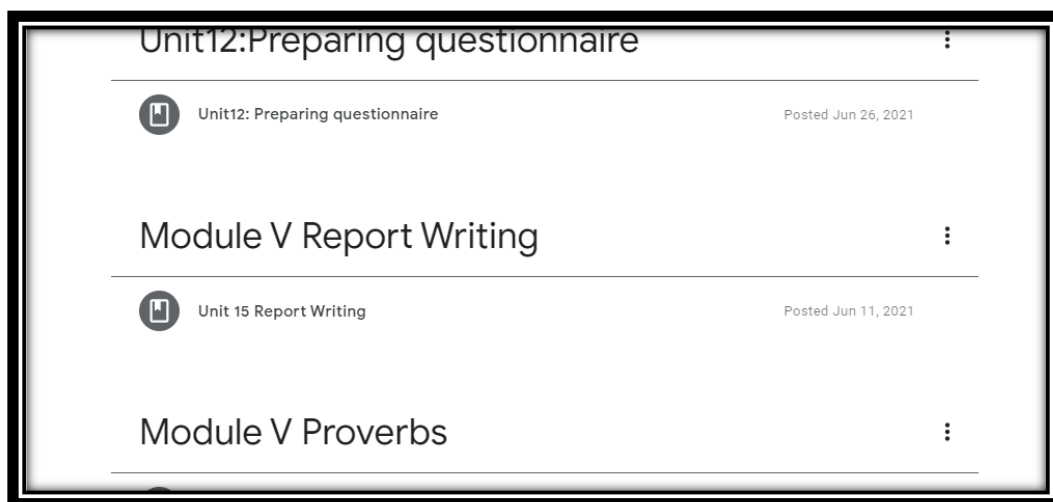

Speaking Skill activities- sample screen picture

Speaking Skill activities- sample screen picture

Reading Skills

Reading skills are abilities that pertain to a person's capacity to read, comprehend, interpret and decode written language and texts. Exceptional reading skills can be highly beneficial to assimilating and responding to written communications like emails, messages, letters and other written messages. Faculties teach theories of reading and give them activities to achieve their goals in reading skills.

Writing Skill activities provided sample screen picture

5 REPORT ON REMEDIAL CLASS

Remedial coaching classes were carried out for slow learners to identify their weaknesses and strengthen the areas where they are in lack. All the departments of the college conduct remedial classes for all semesters and students are benefited from the session. Systematic coaching classes for needy students will help them to perform better in their examinations. Remedial classes include organized teaching hours, repeated examinations, and mentoring sessions. The classes helped students to enhance their performances. The slow learners were identified by entry-level test and decided to give remedial classes from 3 pm-4 pm three days a week.

6 REPORT ON BRIDGE COURSE

The Department of Physics, Chemistry, Commerce, English and Economics organized a one-week duration bridge course to provide a foundation in the core subjects for the new students (2018-2021 Batch). Bridge course will help the students to have a smooth transition from plus –two classes to the first-degree course. As per the decision of college, the departments organised one hour classes after the regular academic hours. The learner understood the concepts, the basics rules and procedures. The practical skill of the students also improved.

7 ICT TOOLS USED

Teachers use information and communication technology to effectively teach the curriculum. The selected classrooms are equipped with wall-mounted projectors. The smart board and laptops are available to teachers for instruction as needed. Teachers use various educational technologies to support instruction.

5.1.2 Language and Communication skills (2018-23)

The Department of English has been a part of the college since its inception in 1981 under the Sree Narayana Trusts, Kollam. Highly qualified English teachers have been handling English classes since then and the department has been reaching out to the students of all mains including BA Economics, B.Sc. Mathematics, BSc Physics and BSc Chemistry, and BCom. The department has been making conscious efforts to improve the English language skills of the students of this college who come from different levels of socio-economic backgrounds. With the emergence of English as a global lingua franca, English language skills have become vital for the current generation of students. As large number of students from rural areas are seen to be weak in English language skills, teachers of the department have been conducting remedial classes for them. Even in the absence of B.A. English Language and Literature course, the Department of English continues to play a vital role of imparting the knowledge of English to students of this college. The Department of English strives to equip the students by providing English language skill activities for improving their language skills. For achieving this goal the department conducts various programmes and classes online/offline for improving their four language skills for the past five years.

Providing practice materials and activities

Practice is essential to build vocabulary and develop your English communication skills. These activities help to accelerate English speaking, listening, reading, and writing skills. Teachers expose the students to tremendous practice materials available free online practice tests and offline study materials and physical classes

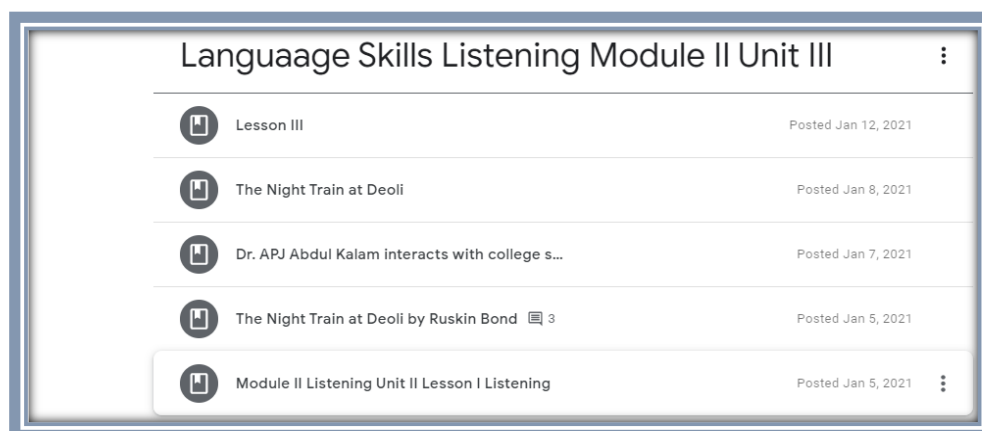

Activities

Various fun activities like word games, jokes, riddles, rhymes, songs, and tongue twisters give the students to learn the English language easily. Students are exposed to YouTube videos, guiding students to attend webinars of international universities like Oxford, Cambridge, etc. These activities prepare the students to be more updated and engaged in language skill activities.

Reading Skills

Reading skills are abilities that pertain to a person's capacity to read, comprehend, interpret and decode written language and texts. Exceptional reading skills can be highly beneficial to assimilating and responding to written communications like emails, messages, letters and other

written messages. Faculties teach theories of reading and give them activities to achieve their goals in reading skills.
