CHENGANNUR  
NATIONAL SERVICE SCHEME 49A&B**

**WORLD FIRST AID DAY**

Every year, World First Aid Day is observed on the second Saturday of September to spread awareness on first aid and how it can prevent injuries and save lives in a critical situation. This year, World First Aid Day will be celebrated on September 11, 2021 across the globe. World First Aid day is an annual campaign aimed at promoting the importance of first aid training and increasing its accessibility to save more lives in a crisis. First Aid helps preserve and save lives and also plays an important role in preventing the situation from getting worse. It promotes recovery and, in many cases, first aid may be necessary to keep the victim alive before he/she can be taken to the hospital or before a doctor arrives for more specialised treatment.

The NSS unit of our college celebrated the world first day on September 11 itself. We posters and drawings to aware the students about the importance of the day and importance of first aid in our daily life. We also made few videos describing the first aid's that should be adopted in several situations. It includes First aid for burns, cuts, heart attack, road accidents and for snake bites. Through these videos we cleared so many questions and doubts of volunteers and students about the applications of first aids.
