### **Report 2021-2022**

‘Career Guidance Cell’ in our institution provides various opportunities to our students to identify their skills and interests and create awareness about importance of their further higher studies, job opportunities etc. The cell conducted workshops and training programmes on career orientation, higher study options, self-employment, and entrepreneurship management to make the students aware of educational and career choices

#### **1. Entrepreneurship Talk Series**

Entrepreneurs today are more than just revenue builders. They offer employment, better prospects and a new way of living to the younger generation. India too, is a witness to Entrepreneurial Development, as the young minds have more courage and are willing to take risks. They are huge contributors to the economy today. Universities play a crucial role in underpinning innovation and entrepreneurial activities. They provide the conditions, facilities and talent that foster the emergence of breakthrough ideas. There are also strong pedagogical reasons for teaching entrepreneurship, as it engages students with real-world problems, develops critical thinking, and broadens their life skills. Entrepreneurship is simply the best way to improve your way of working and way of living. There are never-ending contributions and

Benefits of entrepreneurship to our students. The education of entrepreneurship forces them to start their work career before the completion of their degrees.
