

Entrepreneurship Talk Series

Entrepreneurs today are more than just revenue builders. They offer employment, better prospects and a new way of living to the younger generation. India too, is a witness to Entrepreneurial Development, as the young minds have more courage and are willing to take risks. They are huge contributors to the economy today. Universities play a crucial role in underpinning innovation and entrepreneurial activities. They provide the conditions, facilities and talent that foster the emergence of breakthrough ideas.

There are also strong pedagogical reasons for teaching entrepreneurship, as it engages students with pressing real-world problems, develops critical thinking, and broadens their life skills. Entrepreneurship is simply the best way to improve your way of working and way of living. There are never-ending contributions and benefits of entrepreneurship to our students. The education of entrepreneurship forces them to start their work career before the completion of their degrees.
