With the induction of Post Graduate degree in Behavioural Economics and Data Science Students with diverse career dreams aspire to be part of the department.

The Tamil Nadu Dr Ambedkar Law University (TNDALU), Chennai

The Government of Tamil Nadu by Act of State Legislature (Act 43 of 1997) established the Tamil Nadu Dr. Ambedkar Law University for the advancement and dissemination of knowledge in learning, teaching and research in the field of law. The University is recognized by the Bar Council of India (BCI) and University Grants Commission (UGC) (Sec. 2f and 12b of the UGC Act.). This University is an affiliating University with 14 Government law colleges and 2 private law colleges in the State of Tamil Nadu.

The School of Excellence in Law (SOEL) is situated at M.G.R. Salai, Near Taramani [MRTS] Railway Station, Perungudi, Chennai. Under the broad canopy of SOEL, the Law University is offering Five Years integrated B.A. LL.B (Hon's), B.Com. LL.B. (Hon's), B.B.A LL.B. (Hon's), B.C.A. LL.B. (Hon's), and Three Years LL.B. (Hon's) as part of its Under Graduate Courses and LL.M., Degrees in Nine branches as part of its Post Graduate Courses. The Research wing is offering Ph.D. in Law and Inter – Disciplinary studies both Full-time and Part-time. At present, there are 10 departments in SOEL with well qualified and experienced faculty members catering to the academic needs of the students pursuing different courses that are offered. The University is striving to offer quality legal education under the stewardship of the Hon'ble Vice-Chancellor, Prof. Dr. N.S. Santhosh Kumar

National Institute of Disaster Management. (NIDM), New Delhi

The National Institute of Disaster Management (NIDM) was constituted under an Act of Parliament with a vision to play the role of a premier institute for capacity development in India and the region. The efforts in this direction that began with the formation of the National Centre for Disaster Management (NCDM) in 1995 gained impetus with its redesignation as the National Institute of Disaster Management (NIDM) for training and capacity development. Under the Disaster Management Act 2005, NIDM has been assigned nodal responsibilities for human resource development, capacity building, training, research, documentation and policy advocacy in the field of disaster management. Both as a national Centre and as a national Institute, NIDM is performing a crucial role in bringing disaster risk reduction to the forefront of the national agenda. The Institute believes that disaster risk reduction is possible only through promotion of a "Culture of Prevention" involving all stakeholders. The Institute works through strategic partnerships with various ministries and departments of the central, state and local governments, academic, research and technical organizations in India and abroad and other bi-lateral and multi-lateral international agencies

Dept. of Economics

Three day National online training programme on “*Venom Hazard management and Best Practices*”, 11 to 13 August, 2021

REPORT

The Dept. of Economics, Sree Narayana College, Chengannur, and The Tamil Nadu Dr. Ambedkar Law University, Chennai in collaboration with National Institute of Disaster Management, Ministry of Home Affairs, Govt. of India had conducted a three day National Online training programme on “*Venom Hazard management and Best Practices*” from 11 to 13th August, 2021.

In the very outset of the programme, the welcome address was delivered by Smt. Sreedevi Gopalakrishnan, HoD, Dept. of Economics, Sree Narayana College, Chengannur. Subsequently, the inaugural address was made by the honorable Principal, Smt. Shereen K, Sree Narayana College, Chengannur. Further, the felicitation was conveyed by Prof. (Dr.) K S Sarwani, The Tamil Nadu Dr. Ambedkar Law University, Chennai and Dr. Ajinder Walia, Assistant professor, NIDM, New Delhi and Smt. Vani Jayadevan, Assistant Professor, Dept. of Economics, Sree Narayana College, Chengannur expressed the vote of thanks.

Inaugural session was followed by the technical sessions where in all the participants had the opportunity to listen to eminent panelists affiliated to reputed academic institutions and research centers from different parts of our country.

The technical sessions started with the presentation of Dr. Dileep Kumar R, Chairman of Indriyam Biologics Pvt. Ltd. Through his presentation, he gave the participants a brief introduction regarding the snake types, classification and its venom. He detailly discussed how snake prevent prey for escaping, the process of anti -snake venom and its preservation. He articulated the issues related to mismanagement by citing a case study of snake bite occurred in Wayanad district of Kerala where the victim lost her life , in addition to it he had suggested the timely action plan to counter this particular incident.

The second session was handled by Mr. Peter Christopher. He provided a clear-cut distinction between different snake species and their diversified characteristics. Through his presentation he also provides valuable suggestions in confronting snake bite. He also stressed upon various provisions under the wildlife protection Act, 1972 which makes the killing of snake a punishable offence

Second day of the training programme, started with lecture of Miss. R R Senji Laxme, Ph.D. Scholar, IISC, Bangalore. She had discussed about the complications of snake bite in human body and the production of commercial Indian Antivenom were borrowed from Tamil Nadu. In her presentation, she stressed that venom will vary between the species as well as within the species and it also varies upon the life style of snake. She discussed the clinical and economic repercussions by pointing out that the increase in number of vials would increase the cost of treatment and it will ultimately become a financial burden for the poor families. She also asserted certain solutions for this from her study ie., through the better understanding of venom and better antivenom manufacturing strategies etc.

After that Dr. VV Pillai, Chief at poison control center and Professor of Forensic Medicine and Toxicology, AIMS, Cochin, Kerala has made his presentation. He mainly focused on the treatment protocols associated with snake envenomation. He started his session with a brief introduction about different types of venomous and non- venomous snakes, its identification and treatment protocols associated with it. He had also provided information about other venomous organisms in our ecology and the risk related to it.

Third day of the training programme, begins with the session was handled by Dr. S R Chandramouli from Pondicherry University. He discussed the major identifying features of venomous and non- venomous snakes. He shared the information and concern that India is a country which is prone to high number of snake bites and related issues every year especially in rural areas.

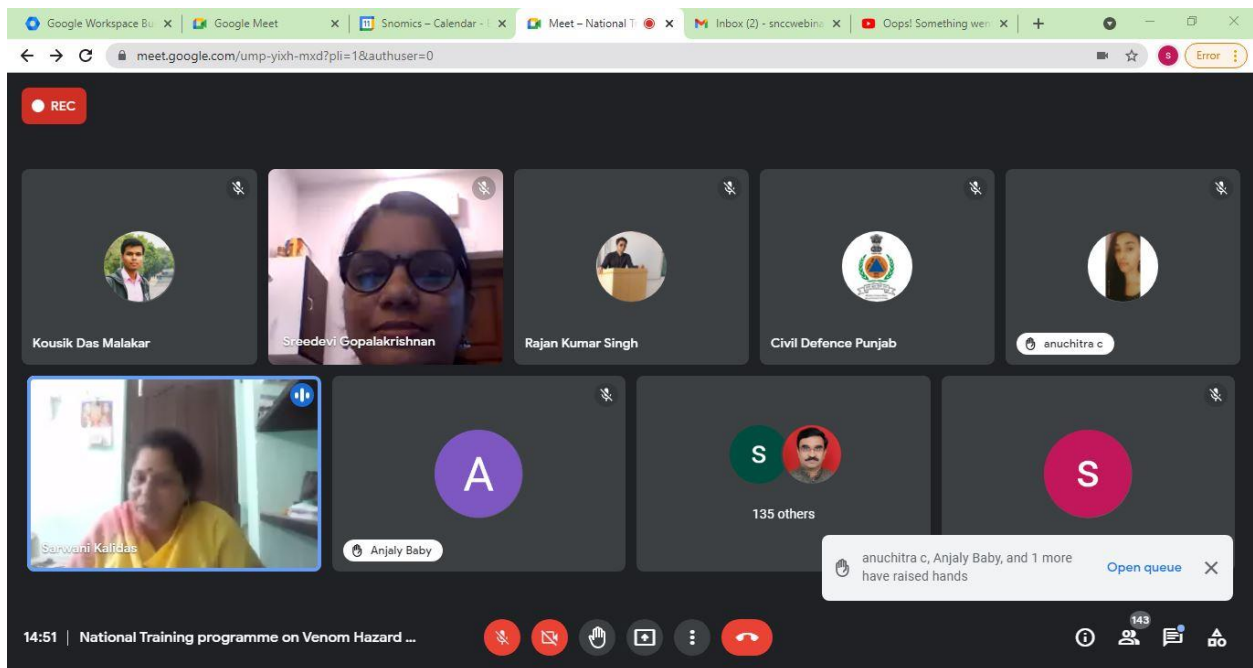

Next session was handled by Dr. Haritha Devi, Research Director, The Tamil Nadu Dr Ambedkar Law University, Chennai. Her lecture mainly focusses on the legal provisions in transmitting the traditional ecological knowledge into knowledge economy and she argues that assigning intellectual property rights will empower the indigenous community. She emphasized

the importance of traditional knowledge in the treatment of snake bite and its documentation would be beneficial to the mankind and it can also be monetized.

Further, lecture was given by Dr. P Sakthivel, Assistant Professor from The Tamil Nadu Dr Ambedkar Law University, Chennai. The central point of discussion was on the health economic and policy perspectives of antivenom initiatives. He opined that the socio- economic conditions of the patients due to snake bite will be reflected on the treatment cost and it will have a long-term impact on the health and ability of survivors at work. He criticized that national health policy, 2017 didn't have a mention about the specificity of venom/ snake bite even in rural areas and specific health issues including treatment of venom.

The final presentation of the training programme was made by Mr. Jose Louise, Deputy Director from World wildlife Trust of India. The focus of his lecture was to incorporate technology in delivering information regarding snake bites, its nature and mitigation. He introduced a mobile app, 'SARP' for tracing out the incidence of snake bite and related rescue measures.

The three day training programme on “*Venom Hazard management and Best Practices*” ends with the subsequent valedictory session which includes rapporteurs report and vote of thanks.
